

## Wireless LAN

High-speed wireless Internet and e-mail access via laptop or pocket PC, as well as access to your company network (if applicable).

### Let's get started

1. Start your laptop or handheld
2. Start your browser (welcome page will appear automatically)
3. Follow the subscribed steps on your screen

### Laptop configuration

#### TCP/IP network settings:

- SSID=any (incorrect: Any, ANY)
- Obtain an IP address automatically (DHCP enabled)
- Obtain a DNS server address automatically (DNS enabled)

#### Browser settings:

- Do not use a proxy server

#### Internet connection settings:

- Do not select a dial-up connection

### Hotline

From 7am to 7pm,  
call +41 (0)900 81 6789 (CHF 1.10/min.)
