

Map of parking facilities and staff parking guidance system

Valid as of 1st January 2012 / Revised as of 1st March 2012

The staff parking guidance system on the access roads must be observed. Any parking facilities shown as full may not be approached or used.

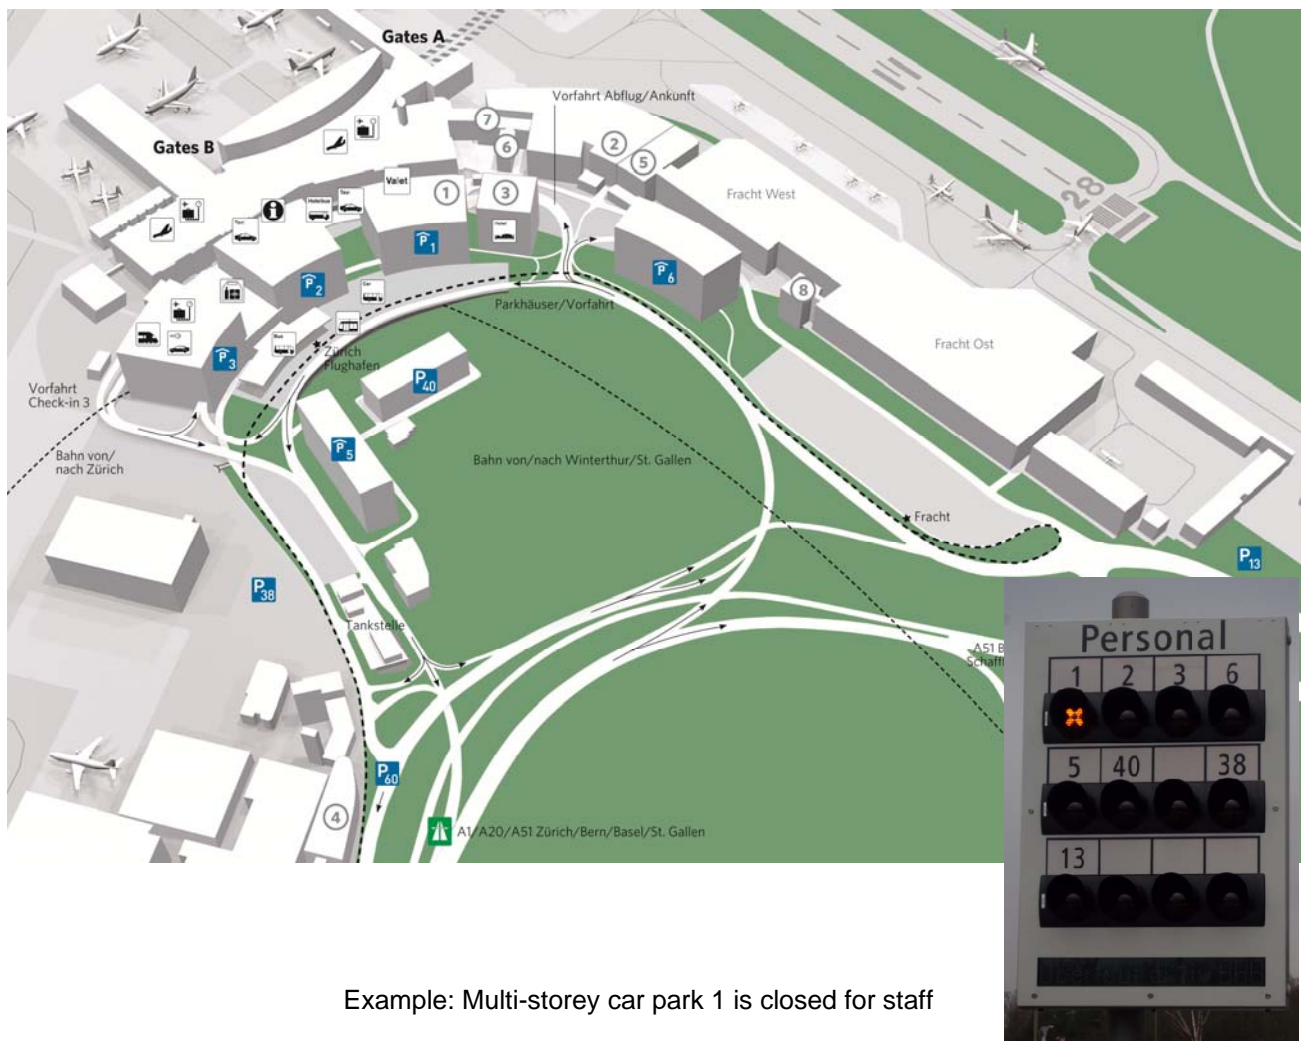

Multi-storey car parks and parking lots, which shall not be approached, respectively not be used by staff are highlighted with an orange cross on the staff parking guidance system. Not highlighted multi-storey car parks and parking lots may be used.

Holders of the permanent parking card premium should follow the parking guidance system for passengers and visitors.

An overflow into overflow parking areas may take place on peak days, because the parking facilities can reach the limit of capacity. In this case, the special instructions must be observed.

Detailed information for the staff parking overflow can be found on the webpage

www.flughafen-zuerich.ch/staffparking

Example: Multi-storey car park 1 is closed for staff
